

## 2006 – EADS Astrium Master Performance Award 2006

Spur Electron wins EADS Astrium Master Supplier Award for second consecutive year

This award have been gained through Continuous Improvement Initiatives implemented increasing Quality and Delivery Performance to 99.58% covering supply of over 2,500 assemblies each year. Providing EADS Astrium with an assembly through to test solution.

Spur Electron is the only Printed Circuit Board Assembler with Master Supplier Status within the UK and has overcome the initial perception that Master Supplier Status can not be achieved by Suppliers of complex products.
