

Job Title: Component Engineer

Role:

Working as part of a small team to provide technical support to the project managers for procurement of EEE electronic components .

The ideal candidate would have experience in the use and application of some (or all) of the following:

- EEE parts selection
- Creation and approval of parts approval documents (PAD's)
- Review of parts lists
- Data review
- Preparation of screen reports and procedures
- Review of declared parts lists (DCL's)
- Communication with internal and external customers
- Participation in parts control boards (PCB's) and non-conformance review boards (NRB's)
- Assist in the training of apprentices and junior engineers

Qualifications and/or Skills:

Essential:

- Good Knowledge of electronic components
- The candidate should have a flexible approach and be able to work on their own initiative.
- The ability to communicate technical matters, both verbally and in writing, to a range of people, both technical and non-technical.
- The ability to work in a team environment and yet be self-motivated is expected; as is the ability to work accurately to deadlines and under extreme pressure.
- A good working knowledge of Microsoft Word and Excel.

Desirable:

- Knowledge of ESCC/ECSS/MIL specifications
- ONC/HNC/HND in Electrical & Electronic Engineering

Please apply by sending your CV to the HR Manager – hlunt@spurelectron.com before 30th June 2015
