

TECHNICAL DATA SHEET

PICK & PLACE

SERVICE DESCRIPTION

- Manufacturing PCB's at a much higher capacity than ever before
- A machine to deliver exceptionally quick turnaround times

CHARACTERISTICS

- 8 nozzle placement head
- Maximum component height - 18mm
- Maximum board size - 540x300mm
- Electrical and/or pneumatic feeders

LEAD TIME

- Usually seconds-5 minutes per board

TECHNICAL DATA

- Fiducial correction to ensure exact positioning of placements is met
- Component camera to ensure accuracy of component placement
- Placement accuracy - 0.01mm
- Maximum placement speed - 16,000CPH
